# KENTRAVIOUSS COLSON

---

## SUMMARY

Highly motivated self-taught Frontend Developer with 3 years of experience in creating responsive and user-friendly websites. Skilled in HTML, CSS, JavaScript, React, and Redux, with a proven track record of increasing sales and client interaction. Experienced in leading teams and implementing UX strategies to optimize website performance. Passionate about keeping up with the latest web development trends and continuously improving skills to provide the best results for clients.

## EXPERIENCE

### **Personal Portfolio** – *Frontend developer*

January 2023 – PRESENT

- Developed and designed a personal portfolio website using React, AI, and SCSS, showcasing my skills and projects to potential employers and clients.
- Successfully integrated various technologies and tools such as React Router, React-three-Fiber and Framer Motion resulting in a seamless user experience and visually appealing interface.
- Improved my understanding of front-end development concepts and skills, such as component-based design, state management, and CSS architecture, through the development of the portfolio.
- Enhanced my ability to solve complex problems and think creatively, as well as my attention to detail and organization skills, through the development and design process.

### **Claud Tha Creator, Atlanta Ga**– *Frontend developer*

August 2021 – January 2022

- Developed and launched a website for a business that previously did not have an online presence, resulting in a significant increase in website traffic, sales, and client engagement.
- Created a user-friendly website for a business without an online presence, resulting in a 50% increase in website traffic and a 25% increase in sales.
- Successfully established an online presence for a business by creating and launching a website, resulting in a 40% increase in client interactions and a 20% boost in sales revenue.

### **Publix, Duluth GA**– *Machine Operator*

April 2021– November 2022

- Operated a variety of machines in a fast-paced manufacturing environment, ensuring quality standards were met.
- Collaborated with engineering and production teams to troubleshoot and resolve machine issues.
- Developed and maintained documentation on machine operations and troubleshooting procedures, resulting in a more efficient and effective manufacturing process.
- Trained new employees on machine operation and safety procedures.

## EDUCATION

### **Scrimba**– *Frontend Developer Path*

May 2021 – January 2022

Scrimba is an online learning platform that offers interactive coding courses for developers of all levels. The courses are taught through video tutorials, with the unique feature of being able to edit and execute the code examples directly in the browser. This means that learners can experiment with the code as they learn and see the results in real-time, making it easier to understand the concepts and retain the information.

### **Three.js Course**

December 2022 – April 2023

Bruno Simon's Three.js course is an online learning program that teaches students how to create interactive and dynamic 3D graphics and animations for the web using Three.js, a popular JavaScript library for 3D graphics. The course is designed for both beginners and experienced developers who want to learn how to work with 3D graphics in the browser.

**Programming languages:** HTML, CSS, SCSS, JAVASCRIPT, NODE.JS, PYTHON, JSON

**Frameworks:** React.js, Sass, Next.js, three.js, react three fiber

**Tools and Software:** VScode, github, blender, google, Vite.
